Description of Residential Addiction Treatment Services

Program Services and Philosophy:

Adeara Recovery Centre (Adeara) is an accredited, long-term residential recovery centre for women (and their children when possible) struggling with addiction. Residents learn to rebuild their lives and find the strength to heal physically, mentally, emotionally, socially and spiritually. Our holistic program is customized for each individual. Adeara is an abstinence-based program meaning there is a zero drug and alcohol policy.

Residents at Adeara participate in three classes/day Monday-Friday. All programming stems from a Christian faith meaning attendance at church, bible classes, and devotions are a part of some of the programming at Adeara. With this in mind, *it is not a requirement for clients to have a Christian faith while at Adeara*. Please see Adeara's website for further details about other classes offered. Residents are provided with education, individual counselling, group therapy, and life-skills training. A program calendar is given out monthly with further class details (times and type of class).

Accommodations:

Each resident has their own private room with a kitchenette and bathroom. All bedrooms/ suites come fully furnished, and kitchenettes/kitchens have applicable appliances.

Meals and chores:

No meals are provided for residents. Residents are given the opportunity to purchase food from nearby grocery stores to keep in their kitchenette. This is an additional cost incurred by the resident. Occasionally food donations are offered to residents. Residents are required to maintain a clean-living space as well as participate in daily chores which include: cleaning the hallways and other general areas, etc.

Amenities:

Residents have access to the following amenities (see Resident Manual for approved times of use):

- Two shared living rooms each equipped with a television.
- Computer lab (once off restriction).
- Phone for business and personal use.
- A CD player and preformatted MP3s.
